DETAILED ACTION

Claims 1, 3-5, 11, 12 and 18-21 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-10. Applicants' amendment filed 4 September 2007 has overcome the objection to the claims as containing non-elected subject matter as the claims have been amended to include only the subject matter of elected Group V. Applicants' cancellation of claim 35 has overcome the provisional obviousness type double patenting rejection of the claim.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raynard Yuro on 17 October 2007.

The application has been amended as follows:

1. Cancel claims 22 and 34.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula I. The novel and nonobvious aspect of this invention involves the substituents A and C. The closest prior art of record fails to teach or suggest applicants' instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
